

Practical Shooting Training Group

Ben Stoeger & Joel Park

CLASS INFORMATION

Practical Shooting Training Group instructors Ben Stoeger and Joel Park are looking for ranges to host upcoming classes. We offer two different classes with very minimal work for the host range. The classes we offer are:

- Fundamentals
 - A two day class that covers every aspect of practical shooting from the ground up.
- Skills & Drills
 - A two day advanced class that builds on the information learned in Fundamentals

We take care of:

- Registration & tuition - the PSTG site is set up for attendees to register and pay tuition.
- Most supplies - We ship targets and pasters to the range a few weeks before class starts.
- We generally host the classes back to back for a total of four days between both classes.

RANGE REQUIREMENTS

- All we require from a host range is:
 - Two bays
 - Props
 - Target stands, barrel stacks, walls or a vision barrier & steel poppers (a plus, but not required)
 - Total range fee for the use of your facility
 - A list of dates the range is available to host the class
