

# PRACTICAL SHOOTING TRAINING GROUP

*Ben Stoeger & Joel Park*

## CLASS INFORMATION

Practical Shooting Training Group instructors Ben Stoeger and Joel Park are always looking for ranges to host upcoming Classes. We offer two different classes with very minimal work for the host range. The classes we offer are:

- Fundamentals
  - A two day class that covers every aspect of practical shooting from the ground up.
- Skills & Drills
  - A two day advanced class that builds on the information learned in Fundamentals which has more scenario style shooting that stacks multiple layers of difficulty.

We take care of:

- Registration & tuition
- Most supplies - I ship targets and pasters to the range a few weeks before class starts.
- Most commonly organizers schedule a Fundamentals class followed by a Skills and Drills class.

## RANGE REQUIREMENTS

- All we require from a host range is:
  - Two bays
  - Props
    - Target stands, barrel stacks, walls or a vision barrier & steel poppers (a plus, but not required)
  - Total range fee for the use of your facility
  - Dates approved by the range that the facility is available to host
